*Knowledge is the only way to progress
But to achieve our goal we need to go beyond the Knowledge.
If not, the same knowledge turns out to be
our greatest hindrance to our achieving goal.
Exactly like a ladder.*

*Unfortunately, many get addicted to the Knowledge, Wisdom, Intellectualism
These people are, as if, lost in the dense forest, in the uncharted ocean and in a vast desert
They do not cross their Knowledge and reach their Goal.*

*First we should know what Knowledge is
Then we will experience that every Knowledge is highly circumscribed
Exhaust comprehensively the Knowledge and Go Beyond
The only sure way to reach our Goal*

*Dear Yoga Practitioners, Teachers, Yoga Therapists and Aspirants of Spiritual Journey,
Please make use of this opportunity*

- To Enrich your understanding on the inner path, as bestowed by Great Rsi-s*

BEYOND KNOWLEDGE

(A Seminar based on yoga sūtra and Vedānta)

Every Knowledge is fascinating

*One can exhaust his/her entire life span in trying to know about a leaf
and end up highly unsuccessful; without completing even a bit of the mission.*

Truly, every knowledge system is like

an uncharted desert , unfathomable sea and an inescapable forest.

More you know, more you come to know that the known is but a fraction.

But, knowledge is inevitable.

Otherwise, normal life would be impossible.

Sitting , standing , speaking , eating

in short , all our life activities are nothing but learned knowledge only.

Our feelings of desolateness and happiness are our learned behaviours only.

*All the great scientific advancements and all man made disasters
are nothing but the expressions of our learned knowledge only.*

Knowledge is so essential to life ;

but no one can decipher it completely.

Are we then, forced to live a life with the available half baked knowledge ?

Then, that type of life is definitely not worth living.

That life would be a living death.

It can not be the design of the Life,

Such a life would not be the purpose of the TOTALITY.

Then, how to confront this situation ?

VEDANTA shows the way

The very name signifies it.

VEDA means 'knowledge' and ANTA means 'an end'.

*It leads the practitioners to the very end of the Knowledge ,
and guides them to pursue 'BEYOND KNOWLEDGE'.*

Participants, use this Seminar to learn how :

**# The Knowledge based life leads only to dualities - ups & downs, joys & miseries ,
Happiness & unhappiness, victories & defeats, good & bad, desirable & undesirable etc.,**

**# The Knowledge based life spins an inescapable web of dualities around every individual
and intensify the clutches for thousands and thousands of births.**

**# The Vedanta makes possible to not to allow the Knowledge to master the individual but to
convert the same Knowledge into an obedient servant.**

**# As Vedanta is an intensely practical Jñānam, this seminar
delivers all the practical technicalities during its practical sessions.**

Let yourself be re-introduced

Let yourself be re-linked with your Essential Being

Let your potential be manifested Totally
